

EXPLANATION

Generalized geologic units				Oasis Valley hydrographic area—
Cenozoic valley fill	(Yellow)	Paleozoic carbonate rock	(Blue)	Taken from Rush (1968) and Cardinalli and others (1968)
Cenozoic volcanic rock	(Orange)	Paleozoic/Precambrian siliciclastic rock	(Purple)	Central Caldera Complex of the southwestern Nevada volcanic field— Modified from Wahl and others (1997)
Mesozoic intrusive rock	(Red)			Trace of Thirsty Canyon Lineament— Modified from Mankinen and others (1999)
